# Understanding the Bronze Secure Plus 3 Plan

The Bronze Secure Plus 3 Plan may work a little differently than other health plans that you've had in the past. Your plan includes free coverage for preventive screenings to keep you healthy and a high deductible to help keep your premium costs low. You'll have coverage for things like:

- Choice of doctors and hospitals
- Doctor visits
- No-cost preventive care
- Hospitalization
- Laboratory coverage
- No-cost birth control
- Prescription drugs
- Urgent care visits
- Telemedicine and telehealth visits
- ExerciseRewards™ & Active&Fit Enterprise™ fitness benefits
- \$50 reward for annual dental cleaning/exam
- Pediatric vision and dental
- Adult eye exams and dental (Preventive & Routine)

## **Let's start with the basics:**

Under the Bronze Secure Plus 3 plan, you have free coverage for:

- Preventive screenings, such as routine physicals and vaccinations, are covered if services are received from a participating or in-network doctor.\*
- Your first 3 visits to your primary care doctor are covered at no charge. This can include visits for mental health care, substance use treatments, telemedicine and telehealth.

For all other services, such as your 4th visit to your primary care doctor, care provided by a specialist or emergency care, you are responsible for paying out of your pocket until you meet your deductible. Once you reach your deductible, your care is covered in full for the remainder of the year.

## **Please refer to "Important terms to know" for definitions.**

\*In accordance with the PPACA preventive care regulations, full coverage (no cost share) will be applied for those services meeting the requirements as outlined in Grade A and B Recommendations of the United States Preventive Services Task Force.

## How this works:

**Preventive Services and first 3 services provided by your primary care doctor**

We Pay  
**100%**

Preventive care and your first 3 visits to your primary care doctor are covered in full, so we provide full coverage. You do not need to meet your deductible first.

**Other Services**  
Until deductible amount is reached:

You Pay  
**100%**

You pay a deductible up to a certain amount

After deductible amount is reached:

We Pay  
**100%**

Once the deductible amount is reached your care is covered in full

 Health insurance company pays

 You pay

Note: For illustrative purposes only - plan options vary.

## For example:

Let's say your deductible is **\$9,100.**

You go to your primary care doctor because you are not feeling well. Because your first 3 visits are covered, **you pay \$0 for the visit.**

You have an accident and need to tend to a broken arm.

Your hospital bill is **\$12,000.** You have to **pay the first \$9,100.** We will pay the rest or **\$2,900.**

Your doctor orders an MRI of your lower back. **The cost of the MRI is \$1,000.**

Because you have already paid your deductible, **you pay \$0.** We pay the total cost of your MRI.

You also have a series of visits to a physical therapist. The cost of these visits is also **covered 100% by us.**

**Remember preventive care is covered in full and is not subject to the deductible. So you have free coverage for things like your annual physical.**

# The top 3 things to know

## 1 What benefits are free?

- Preventive care for you (and your family) is covered in full on the first day your coverage begins.
- Your first 3 visits to your primary care doctor are covered in full.

## 2 Does my plan have a deductible? If so, what does it apply to?

- Yes, this plan has a deductible.
- The deductible will apply to all medical care and prescription drugs.
- It does not apply to your first 3 visits to your primary care doctor.

## 3 How does the money I pay toward my deductible add up (or aggregate)?

- Each person only has to pay their own individual deductible. Once an individual meets their deductible, the plan begins paying on their claims.
- When covering more than one person, the family deductible is met for everyone on the plan once any combination of members reaches the family deductible amount.

## Important terms to know

### Deductible

The amount of money you have to pay before your care is covered in full.

### Covered in full

100% of the total cost is covered by the health insurance company and you do not have to pay anything.
