IMPORTANT

> The following Medical Specialty Drugs are covered under the Medical Benefit (when administered by a health care professional) and require preauthorization. Regardless of the preauthorization requirement under the member contract, claims for the following medical specialty drugs will deny or suspend for review across all lines of business if preauthorization is not obtained.

> Please refer to our website frequently for updates to this list as new drugs are added as they receive FDA approval and are available for use.

> The provider or specialty pharmacy rendering the service is responsible for ensuring that the required preauthorization has been obtained.

> Commercial Self Funded Plans: Refer to the Injectable Medications Benefit for coverage details (any coverage exclusions for certain drugs listed with a drug category will be noted under Injectable Medications).

> ⊆- Cross-Over drug is a drug that can be reviewed under the Medical Benefit (Health care professional administered) or Pharmacy Benefit (self- administered). Please note, the prior auth requirements may differ between medical and pharmacy.
> As of 8/1/2026, Prolia and certain Biosimilars will now require a prior authorization for all LOBs. Bildyos and Enoby are preferred products and will not require PA for any LOB.
>Avastin injected into the eye does not require a prior authorization**

> As of 6/1/2026, Stelara & Skyrizi IV Loading doses require prior authorization under the medical benefit for all LOBs except MMC/HARP. Please obtain prior authorization approval for ongoing SQ therapy PRIOR to administering any IV loading dose(s) to ensure appropriate care for your member.
