> The following Medical Specialty Drugs are covered under the Medical Benefit (when administered by a health care professional) and require preauthorization. Regardless of the preauthorization requirement under the member contract, claims for the following medical specialty drugs will deny or suspend for review across all lines of business if preauthorization is not obtained.

> Please refer to our website frequently for updates to this list as new drugs are added as they receive FDA approval and are available for use.

> The provider or specialty pharmacy rendering the service is responsible for ensuring that the required preauthorization has been obtained.

Participating specialty pharmacy contact information is included on our preauthorization form.

> Commercial Self Funded Plans: Refer to the Injectable Medications Benefit for coverage details (any coverage exclusions for certain drugs listed with a drug category will be noted under Injectable Medications).

> The list below is alphabetical by Drug Brand Name.

>\*\*Avastin injected into the eye does not require a prior authorization

> ^^ Stelara & Skyrizi IV loading doses do not require a prior authorization under the medical benefit. Please obtain prior authorization approval for ongoing SQ therapy PRIOR to administering any IV loading dose(s) to ensure appropriate care for your member.
