

Bronze Secure Plus 3

High Deductible Health Plan 2024

Right here.
For you.

Understanding the Bronze Secure Plus 3

The Bronze Secure Plus 3 Plan may work a little differently than other health plans that you have had in the past. Your plan includes free coverage for preventive screenings to keep you healthy and a high deductible to help keep your premium costs low.

You will have coverage for things like:

- Choice of doctors and hospitals
- Doctor visits
- No-cost preventive care
- Hospitalization
- Laboratory coverage
- No-cost birth control
- Prescription drugs
- Urgent care visits
- Telemedicine and telehealth visits
- VitalizeSM health and wellbeing benefit, powered by Virgin Pulse
- Pediatric vision and dental
- Adult eye exams and dental (Preventive & Routine)

Let's start with the basics:

Under the Bronze Secure Plus 3 plan, you have free coverage for:

- Preventive screenings, such as routine physicals and vaccinations, are covered if services are received from a participating or in-network doctor.*
- Your first 3 visits to your primary care doctor are covered at no charge. This can include visits for mental health care, substance use treatments, telemedicine and telehealth.

For all other services, such as your 4th visit to your primary care doctor, care provided by a specialist or emergency care, you are responsible for paying out of your pocket until you meet your deductible. Once you reach your deductible, your care is covered in full for the remainder of the year.

Please refer to "Important terms to know" for definitions.

*In accordance with the PPACA preventive care regulations, full coverage (no cost share) will be applied for those services meeting the requirements as outlined in Grade A and B Recommendations of the United States Preventive Services Task Force.

How this works

**Preventive Services
and first 3 services provided by
your primary care doctor**

WE PAY 100%

Preventive care and your first 3 visits to your primary care doctor are covered in full, so we provide full coverage. You do not need to meet your deductible first.

**Other Services
Until deductible amount is reached:**

YOU PAY 100%

You pay a deductible up to a certain amount

After deductible amount is reached:

WE PAY 100%

Once the deductible amount is reached your care is covered in full

 Health insurance company pays

 You pay

Example:

Let's say your deductible is **\$9,450.**

You go to your primary care doctor because you are not feeling well. Because your first 3 visits are covered, **you pay \$0 for the visit.**

You have an accident and need to have surgery. **Your hospital bill is \$12,000.** You have to **pay the first \$9,450.** We will pay the rest or **\$2,550.**

Your doctor orders an MRI of your lower back. **The cost of the MRI is \$1,000.** Because you have already paid your deductible, **you pay \$0.** We pay the total cost of your MRI.

You also have a series of visits to a physical therapist. The cost of these visits is also **covered 100% by us.**

Remember preventive care is covered in full and is not subject to the deductible. So you have free coverage for things like your annual physical.

Note: For illustrative purposes only - plan options vary.

The top 3 things to know

1 What benefits are free?

- Preventive care for you (and your family) is covered in full on the first day your coverage begins.
- Your first 3 visits to your primary care doctor are covered in full.

2 Does my plan have a deductible? If so what does it apply to?

- Yes, this plan has a deductible.
- The deductible applies to all medical care and prescription drugs.
- It does not apply to your first 3 visits to your primary care doctor.

3 How does the money I pay toward my deductible add up (or aggregate)?

- Each person only has to pay their own individual deductible. Once an individual meets their deductible, the plan begins paying on their claims.
- When covering more than one person, the family deductible is met for everyone on the plan once any combination of members reaches the family deductible amount.

Important terms to know

Deductible

The amount of money you have to pay before your care is covered in full.

Covered in full

100% of the total cost is covered by the health insurance company and you do not have to pay anything.

Benefits you can count on.

More Access

Large Network — 100% of hospitals and 98% of doctors in Buffalo and Rochester accept our Qualified Health Plans.
