# Important terms to know

#### Copay

This is a fixed amount you pay each time you use a medical service, such as a doctor's office visit, prescription refill or a hospital stay. For example, let's say you qualify for Essential Plan 1, which has a \$15 copay for a doctor office visit. You go to your doctor for strep throat, you pay \$15 at the time of your visit and we pay the rest.

#### **Deductible**

The amount of money you have to pay before we will make any payments toward health care services.

#### Covered in full

100% of the total cost is covered by the health insurance company and you do not have to pay anything.

#### **Out-of-pocket maximum**

A specific amount that limits how much you have to pay out of your own pocket for health care services during a particular time period, not including monthly premiums.
